Figure 2 - Most Active U.S. Target Industries^{3 4}

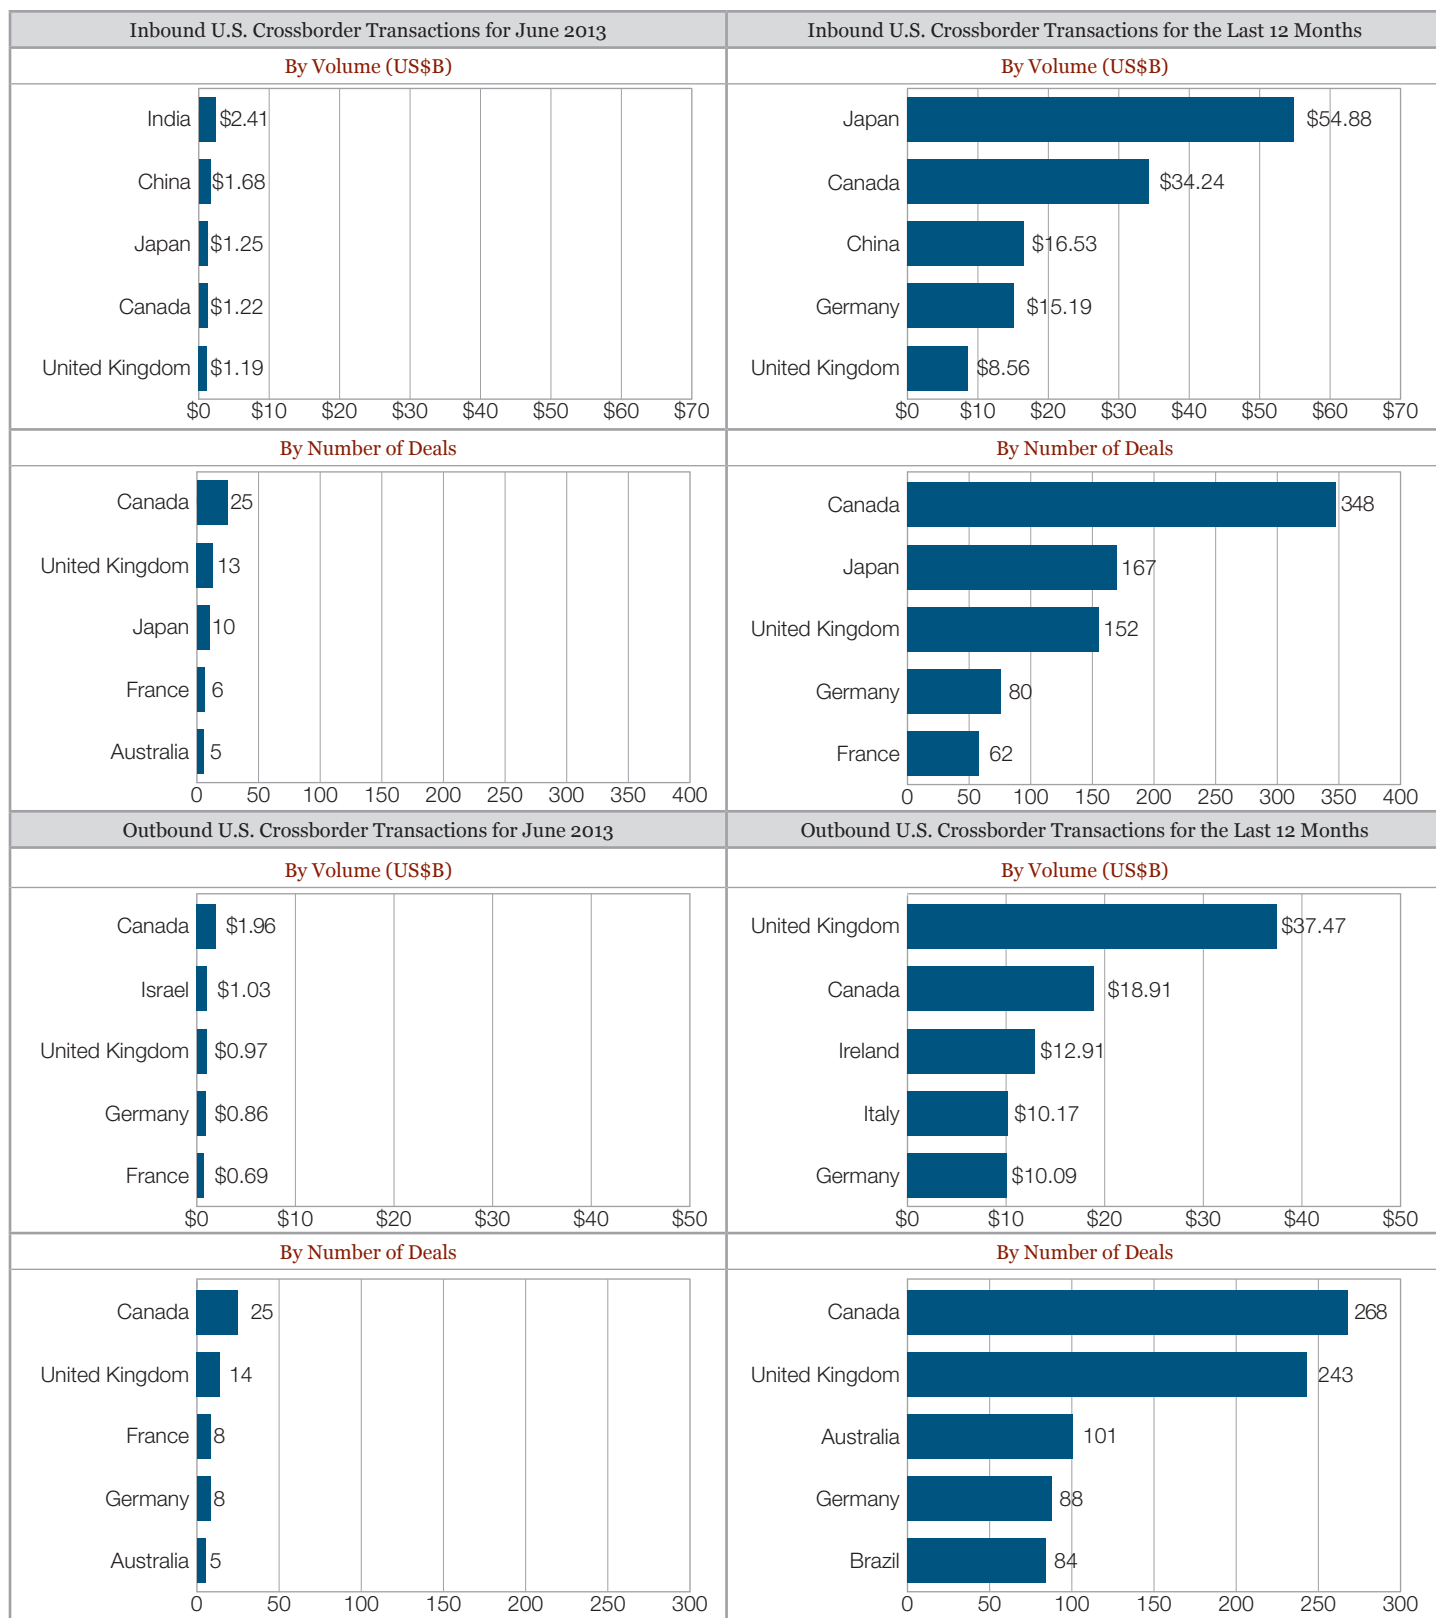

Figures 1-3 were compiled using data from Dealogic, and are for the broader M&A market, including mergers of any value involving public and/or private entities. Figures 4 and 5 were compiled using data from FactSet MergerMetrics, and are limited to mergers involving public U.S. targets announced during the period indicated and valued at \$100 million or higher regardless of whether a definitive merger agreement was reached and filed or withdrawn. All data is as of July 10, 2013 unless otherwise specified. "Last 12 Months" data is for the period from July 2012 to June 2013 inclusive. Data obtained from Dealogic and FactSet MergerMetrics has not been reviewed for accuracy by Paul, Weiss.

1 Ratio of enterprise value to EBITDA, trailing 12 months. This statistic is calculated using a smaller subset of deals for which this data is available.
 2 Global crossborder transactions are those where the acquirer and the target have different nationalities. Nationality is based on where a company has either its headquarters or a majority of its operations.
 3 U.S. crossborder transactions are those transactions where the acquirer and the target have different nationalities and either the acquirer ("Outbound") or the target ("Inbound") has a U.S. nationality.
 4 Industries categories are determined and named by Dealogic.
